Fatma A. Salam, KOGOD School of Business, USA- Fall 2012

Being the first to be abroad at AU from Kuwait as an exchange student was a double-edged sword. One of the edges is rough for the lack of complete knowledge of the program. The Other edge has given me an enormous benefit academically and socially. AU Students who come from different religious and cultures, Arabs and Jews, American and Non-American are all very social and friendly people. Making friends brings bitter0sweet memories despite the cultures and religious differences. I have made good friends. It's a place where one can be whoever wants to be. I believe the greatest gift a man can ever have is the freedom of choice and the freedom of being without social pressure.

Fatma Hammadi, KEDGE Business School, France- Spring 2013

This program is as a good preparation for anyone would like to have a Master or PHD; at least, I can to recognize the how the environment is.
